Kilrush Website Idea

I propose a small website for my local area of Kilrush, Co. Wexford. The website is intended to inform people about the history of the area, as well as the facilities available and a photo gallery.

Project Plan

Purpose

The purpose of the website is to give people a history of the area and to help them find any facilities available. There will also be a photo gallery of the facilities and scenic pictures of the area.

Audience

The audience will be people of all ages, mainly people from Co. Wexford or people hoping to visit the area in future. There may also be people abroad who have emigrated in the past who would like to look up history and information about Kilrush.

Audience Needs

A general history of the area, photographs, church information and church times, contact information, details of local facilities

Project Scope

A general history of the area, photographs, church information and church times, contact information, details of local facilities

Due Dates

Week 1 - create project plan and wireframe mockup
Week 2 - design site
Week 3 - test
Week 4 - release site

Tasks

Collect information about the history of the area and facilities
Take photographs
Design and create website
